#### HIGHER EDUCATIONAL INSTITUTION AS A SPECIFIC FORM OF COMMUNICATIVE SPACE

Communication is considered as a complex process which organizes sociocultural space. With the help of processes of communication society creates information-communicative space setting the line between communications and humanity. Different scientific approaches in psychology and sociology to the concept of «communicative space» have been analyzed.

Communicative space is regarded as: a) the condition of socialization of young generations; b) the set of conditions for communicative processes; c) the totality of communicative practices (communicative competence, communicative creativity, communicative abilities, etc.).

The type of socio-communicative space of education in general is a socio-communicative space of a higher educational institution which:

- a) is formed by stages in the process of socialization of individuals;
- b) undergoes some changes under the influence of social institutions of family, education and upbringing, and of informal relations in the direct microenvironment surroundings;
- c) is to some extent dependent on the physical and social-psychological abilities of a person.
